

FACT

THE COVID-19 VACCINE

FICTION

FICTION:

If you get the COVID-19 vaccine you don't have to wear a mask or practice social distancing.

Since you still have to wear PPE there's no reason to get vaccinated.

FACT:

Getting a COVID-19 vaccine combined with wearing a mask, practicing social distancing, and frequent handwashing are your best protection.

FICTION:

COVID-19 vaccines will give you COVID-19.

FACT:

None of the current vaccines contain the live virus so you can't get COVID-19 from them.

FICTION:

If you've already had COVID-19 there's no benefit to getting vaccinated.

FACT:

Reinfection with COVID-19 is possible so getting the vaccine can still be beneficial.

FICTION:

COVID-19 vaccines will cause you to test positive for COVID-19.

FACT:

The vaccine won't cause you to test positive for COVID-19.
